Research Officer

(Also for already working researchers)

NHTS is a venture of Dreamroots group (an IIM Bangalore incubated startup with 7+ years of growth) having deep interest in healthcare and related fields. NHTS through its NGO, has expanded research into fluency disorders and all speech related disorders. NHTS is committed to provide high work culture with immense satisfaction to all stakeholders including the research team. Following positions are available to join the research team.

All positions are Work from Home (WFH) and working researchers / faculties employed with any organization or university can also apply under “research collaboration” with our research projects, while continuing with their ongoing position at their organization.

NHTS already has a team of SLPs for conducting assessments and therapies of all research participants.
