**Job-Summary:**

We are seeking a compassionate and skilled Speech Language Pathologist (SLP) to support children with speech, language, and communication difficulties. The ideal candidate will design and implement individualized therapy plans, collaborate with multidisciplinary teams, and use evidence-based interventions to improve each child's communication skills, social interaction, and overall development. This role offers a meaningful opportunity to empower children to reach their communication potential and enhance their quality of life.

**Key Responsibilities:**

- Assess children's speech, language, communication, and swallowing needs using appropriate evaluation tools.
- Develop and implement individualized therapy plans tailored to each child's abilities and goals.
- Deliver therapy sessions focusing on articulation, fluency, voice, language development, and social communication skills.
- Collaborate with parents, teachers, and multidisciplinary teams to monitor progress and adjust interventions.
- Coordinate with departments such as occupational therapy, Auditory Verbal Therapy (AVT), psychology, and counselling to ensure comprehensive care.
- Maintain accurate records of therapy sessions, progress notes, and documentation.
- Review and update therapy plans regularly based on each child's progress and evolving needs.
- Support inclusive education by assisting children in mainstream classroom settings.
- Educate parents and caregivers on strategies to reinforce therapy goals at home.

**Qualifications & Skills:**

- Degree or certification in Speech-Language Pathology (B.Sc./M.Sc. SLP)
- 0-2 years of experience working with children with speech, language, or communication challenges.
- Strong communication, collaboration, and problem-solving skills.
- Must Know Telugu & English Language (Hindi Optional).
